LECHUZA® – The original PREMIUM COLLECTION

Simplicity and lightness is our philosophy when it comes to materials and working with our planters. But this means much more to us when it comes to you, our customers, because we want to make caring for plants in LECHUZA as simple and convenient as possible with a selection of practical planters and functional accessories. Our sub-irrigation system is a perfect example: It cares for your plants while you are away on business or holiday.

Look for the LECHUZA logo.

Because, even though other planters might look like ours: Only LECHUZA planters – equipped with the original LECHUZA sub-irrigation system developed by specialists – offer you comfort and quality in addition to their extraordinary design for guaranteed magnificent plant growth.

**LECHUZA
is Spanish
for “owl”**

The LECHUZA sub-irrigation system watches over your plants like a wise and watchful owl, ensuring that they always receive the care they need for optimum growth.

The unique advantages of LECHUZA planters

- **Plants grow better** thanks to a balanced supply of water to the roots.
- **Water less often.** Plants receive the water they need from the reservoir.
- **Changing plantings is easy.** The removable plant liners can be exchanged on the spot and easily moved for space-saving winter storage.
- **Mobile even when planted:** Thanks to the coaster, it's easy to move even large planters.
- **Quality** made in Germany to the highest production standards.

Convincing product features

Ultralight

Shatterproof

Balanced water supply

High-quality plastic

LECHUZA – produced in a factory with a certified environmental management system

Watering is a thing of the past – LECHUZA self-watering planters

Help prevent watering errors

Simply refill the water reservoir when the water level indicator reads “Minimum.”

Control the water supply

It doesn't matter if your plants require a little or a lot of water: LECHUZA-PON optimally regulates the supply of water to the roots.

Just as nature intended

LECHUZA provides your plant with exactly the amount of water it needs.

Our tip:

The watering phase is critical:

Water your plant from above as you usually would at the beginning. Water your plant using the supply shaft for the first time after 12 weeks (number of weeks may vary depending on the planter size) and according to the water level indicator thereafter.

LECHUZA-PON - only the best for your plants

LECHUZA-PON plant substrate comes in 6l, 12l and 25l package sizes and is the perfect alternative if you don't want to use organic potting soil. LECHUZA-PON remains structurally stable for years and ensures optimum aeration.

The 25 liter size is a bucket that comes with a practical scoop

It's this easy:

Add PON as a drainage layer

until the separator is completely covered. The All-in-One Set already includes the right amount of PON.

Planting

Set the plant on the PON layer and add some plant substrate under the root ball as needed until the desired plant height is reached.

Fill

around the root ball until it is completely covered, about 2 cm below the top edge of the planter. You can use PON or potting soil for this.

TERRAPON is a new plant substrate from LECHUZA with humus that is ideal for outdoors.

LECHUZA-TERRAPON can be used to plant nearly all house, balcony and garden plants with the exception of bog garden plants and orchids.

Plant swap!

All of the new CLASSICO LS models feature an interchangeable plant liner with color-coordinated frame handle: Change plants, repot them, trim the roots or rinse the leaves – now all of these chores are a piece of cake and done in a flash!

CLASSICO LS 35 – Cordyline fruticosa 'kiwi'

NEW!

MAXI-CUBI and MINI-CUBI

MAXI-CUBI and MINI-CUBI in the new high-gloss colors taupe and sunny yellow are guaranteed to attract attention.

Decorate your life

Placed on tables or windowsills, these small table planters spruce up even the smallest spaces.

A great gift idea: You'll leave a lasting impression when you give a planted LECHUZA table planter as a gift instead of a short-lived bouquet of flowers.

Model	W x D x H	Plant volume
MINI-CUBI	9 x 9 x 18 cm	approx. 1 liter
MAXI-CUBI	14 x 14 x 26 cm	approx. 1.5 liters

	white high-gloss		taupe high-gloss		scarlet red high-gloss
	charcoal metallic		black high-gloss		sunny yellow high-gloss
	aubergine high-gloss				

DELTA 15 – Anigozanthos

DELTA 15 – Rosmarinus officinalis

With integrated watering system and LECHUZA-PON for immediate planting.

DELTA 15

LECHUZA also lets you enjoy beautiful plants without all the work in DELTA 15, thanks to the interchangeable plant liner with watering system and LECHUZA-PON plant substrate included with the planter.

Our tip: DELTA 15 makes the perfect gift when planted, and is a work of art on tables and sideboards.

Model	Ø x H	Plant volume
DELTA 15	15 x 26 cm	approx. 1.4 liters

	white high-gloss		taupe high-gloss		scarlet red high-gloss
	charcoal metallic		black high-gloss		sunny yellow high-gloss
	aubergine high-gloss				

all in one

Watering and checking the water level in the planter is easy.

DELTA 20

DELTA 20 and DELTINI come in a wonderful size for windowsills or smaller surfaces in your kitchen. Thanks to the LECHUZA sub-irrigation system, you can even grow your own delicious herbs in addition to decorative houseplants.

Model	W × D × H	Plant volume
DELTA 20	40 × 15 × 18 cm	approx. 5 liters

-  white high-gloss
-  charcoal metallic
-  aubergine high-gloss

-  taupe high-gloss
-  black high-gloss

-  scarlet red high-gloss
-  sunny yellow high-gloss

Our tip: DELTA 20 and DELTINI have the same height and are perfect together for creative windowsill decoration.

all in one

New colors!
taupe and sunny yellow

DELTINI – Peperomia rotundifolia, Peperomia maculosa, Kalanchoe thyrsiflora, Peperomia clusiifolia

DELTINI

DELTINI has a circular base that gradually transforms into a square with rounded corners at the top – a feature that offers optimum plant volume in a space-saving planter size that is also ideal for windowsills.

Model	Ø x H	Plant volume
DELTINI	14 x 18 cm	approx. 1,2 liters

-  white high-gloss
-  taupe high-gloss
-  scarlet red high-gloss
-  charcoal metallic
-  black high-gloss
-  sunny yellow high-gloss
-  aubergine high-gloss

Our tip: LECHUZA-PON plant substrate is perfect for cultivating orchids.

An attractive gift that already comes "gift wrapped": PREMIUM planters from LECHUZA with high-quality finishes.
