FIRE RETARDANT FOLIAGE • FRUIT AND VEGETABLES • PROGRASS • PLANTERS

FIRESILX

FLAME RETARDANT FOLIAGE

Fire Retardant Foliage is available on products throughout this brochure, wherever you see this logo.

Firesilx™ is an exclusive range of Inherently Fire Retardant products. These products have been tested by numerous fire departments worldwide and our own B.S. Certificates (BS5852) are available on request.

With Firesilx™ foliage you get consistent cover even on PVC parts, this is because it is part of the manufacturing process.

The protection is not sprayed or dipped

into fire retardant chemicals and as a result will not leave an oily film which attracts dust or washes off. There is also no re-proofing required.

With large scale commercial projects, it is factors like these that make all the difference, and give you peace of mind.

www.treelocate.com

UVSILX

COLOURFAST FOLIAGE

UV Colour fast Foliage is available on products throughout this brochure, wherever you see this logo.

A brand new and exciting development. Certain products throughout the brochure will show the UV Silx logo. These products are either available from stock or by special order and have been treated with an ultra-violet inhibitor which will keep your product colourfast in more extreme, hot and sunny climates. Ideal for Topiary hedging, hanging baskets and exterior plants and palms.

4

Product: Hawaiian Ficus Green (TL027)
Planter: C53-45SLV MDF

Product: Standard Ficus Green (TL109)
Planter: C54-56BK MDF

Product: Standard Ficus Variegated (TL119)
Planter: Aluminium (AL1640)

Product: Hawaiian Ficus Variegated (TL090)
Planter: C53-36SLV MDF

Standard Ficus

Green or Variegated leaves available in a number of styles and heights up to 8m. Hand-built on natural wood stems.

Hawaiian Ficus

Product: Ficus Exotica Green (TL091)
Planter: C53-28SLV MDF

Product: Ficus Exotica Variegated (TL091/V)
Planter: C53-28SLV MDF

Leaf Sample:
 Ficus Exotica Natural Variegated

Product: Ficus Exotica Variegated (TL091SB)
Planter: C53-36BK MDF

Ficus Exotica Natural

A mixture of lush large and small leaves with new shoots make this range of trees extremely life like.

Ficus Exotica Spiral

6

Product: Ficus Natasja Umbrella (TL004/6)
Planter: C53-36BK MDF

Leaf Sample:
 Ficus Natasja

Product: Ficus Natasja Tropical (TL101)
Planter: Cuenca Range (M/CUENCA40T)

Product: Ficus Natasja Topping (TL004)
Planter: Cuenca Range (M/CUENCA30T)

Ficus Natasja

Lush foliage with a mix of glossy, dark mature and light new leaves similar to citrus, with fine close-up detail.

Leaf Sample:
Ficus Longifolia

Product: 1.8m Ficus Longifolia Mophead
Planter: M/KILI

Product: 1.8m Ficus Longifolia (TLLONG6)
Planter: MDF - C53-36BK

Product: 1.5m Ficus Longifolia (TLLONG5)
Planter: Cuenca Range (M/CUENCA40T)

Ficus Longifolia

Product: Ficus Twiggly Slim (DF72TG)

Product: Bonsanty Aralia (DFMA3.5)

Product: Root Ming Aralia (DFMA6)

Product: Crownly Ficus Longifolia
Code: (DFWF)

Product: Ficus Octopus (DF-OF6)

Feature Stem

The above products are available in numerous different foliage types.

Product: Capensia Crazy (TLO54/5)
Planter: C53-36BK MDF

Product: Capensia Nitida (TL089)
Planter: C53-36BK MDF

Leaf Sample:
Capensia

Product: 3m Capensia Canopy (TLCAPS300)
Planter: Moroccan (TL4740)

Capensia

Dark Bronze-Green leaves with a contrasting Burgundy underside. Capensia Crazy is built with three leaf clusters on distinctive twisted stems.

Product: Japanese Maple Autumn
Planter: Bayon Range (M/BAYON40)

Sample (Top): Japanese Maple Burgundy
Sample (Bottom): Japanese Maple Green

Product: Japanese Maple Green
Planter: CO2-33SLV

Product: Japanese Maple Burgundy
Planter: Cuenca Range (M/CUENCA40T)

Japanese Maple

An ever-popular series of trees with their unique palmate foliage. In Green, Green and Red or Burgundy with a choice of stems.

Product: Dracaena Reflexa Green (TLDRAC/5G)
Planter: C53-36BK MDF

Product: Dracaena Reflexa V'gated (TLDRAC5)
Planter: C54-36SLV MDF

Product: Podocarpus (TL005)
Planter: CO2-33SLV MDF

Product: Dracaena Marginata (TL025/5)
Planter: C54-50SLV

Dracaena Reflexa

Podocarpus

Marginata

Abundant leaves with strong, light-catching shapes characterise these typically tropical trees. Available in a range of sizes.

Product: Bay Laurel Ball (TL002)
Planter: Cuenca Range (M/CUENCA30T)

Product: Bay Laurel Pyramid (TL103)
Planter: Cuenca Range (M/CUENCA30T)

Bay Laurel

One of our best selling lines since we introduced the new foliage with small berries.

Product: Bay Laurel Ball Spiral (TL002/5.5)
Planter: C53-36BK MDF

Product: Bay Laurel Bush Ball (TL002-50)
Planter: C48-80BK MDF

Product: Bay Laurel Bush Ball (TL002-25)
Planter: C48-60BK MDF

Bay Laurel

In a selection of profiles and almost impossible to tell from the real thing, these bays make excellent sentinel and avenue trees.

Product: 3m Olive with Fabricated Stem
Planter: Cuenca Range (M/CUENCA100T)

Product: Olive Ball (TLOLIVE5)
Planter: Cuenca Range (M/CUENCA40T)

Product: 6ft Olive Tree (TLOLIVE/6)
Planter: Moroccan

Olive Trees

Bring a taste of the Med to your premises with these glossy-leaved ornamental trees on natural trunks. Life like detail in leaves and roots, make ideal centrepieces, corners or features.

Pots shown are not included unless specified. The above products can also be specified in Fire Retardant Foliage.

Product: Royal Rose Ball in Beauty (TLRB4.5)
Planter: Versailles Planter (TL084B)

Flower Sample:
 Royal Rose in Beauty

Product: Rose Lady Plants in Yellow (60cm - RLP2R/Y), Pink (90cm - RLP3P) and Red (60cm - RLP2RB)

Rose Trees

Bring the traditional Englishness of your garden indoors with these superbly realistic Rose plants. Prune and prick your finger no more!

Rose Lady Plants

Product: Wisteria Liana in Dark Purple (TLWIST5P), Cream (TLWIST6CR) and Fuschia (TLWIST6F).
Planter: Aluminium Cylinder (AL16) and Kansai

Product: Bouganvillia in Cream
Planter: C42-20BK MDF

Product: Bouganvillia in Red
Planter: C42-20BK MDF

Wisteria

Embellished with spectacular blossom the Wisteria adds grace and colour to any room, as does the Bouganvillia with its colourful flowers.

Bouganvillia

Product: White Cherry Tree (FL/CB/C5)
Planter: C42/20BK MDF

Product: Pink Cherry Tree (FL/CB5)
Planter: C42/20BK MDF

Product: Fruit Tree Orange (TLORG5)
Planter: Moroccan (TL4914)

Left: Orange Topping Tree (TL114)
Right: Lemon Topping Tree (TL113)

Fruit Trees

Add visual interest to your home or working environment with these lifelike Fruit trees which make great centrepieces or features.

Product: Natural Bamboo (TL300)
Planter: C53-36BK MDF

Product: Bamboo Buddha (TL302)
Planter: Moroccan (TL4914)

Product: Bamboo Buddha Umbrella (TL301/6)
Planter: Moroccan (TL4914)

Natural Bamboo

With lush foliage, Natural Bamboo is a perennial favourite and ideal for screening.

Bamboo Buddha

Bamboo Buddha with its thicker stem makes an ideal feature.

Product: Japanese Bamboo (TL028)
Planter: Cuenca Range (M/CUENCA40T)

Japanese Bamboo

Japanese Bamboo consists of fine delicate foliage.

Product: Oriental Bamboo (TLOBAM)
Planters: Kili and Kibo Terracotta

Oriental Bamboo

Oriental is even finer making attractive silhouettes or airy partitions.

CONTRACT, BESPOKE AND PREMIER BESPOKE

In this section you will find...

LARGE SPECIMEN TREES CONTRACT COLLECTION • SPECIMEN BESPOKE TREES •
THE FABRICATE RANGE • FABRICATED HANDPAINTED RESIN TRUNKS • OLIVE TR

CONTRACT RANGE

A range of pre-fabricated trees made using natural hardwood trunks and branches and supplied with Firesilx fire retardant foliage. The trees come in an easy to assemble kit which facilitates easier carriage. The practical nature of this product, together with a realistic appearance and competitive price make it a popular choice for the interior landscaper and designer.

The range us available in the following foliage types:

- Ficus Exotica
- Japanese Maple
- Dracaena Reflexa 'Song of India'
- Capensia
- Mountain Gum (Longifolia)

The choice of heights is 2.5, 3, 4, 5, 6 and 7 metres

BESPOKE

This range of beautiful handmade trees is produced to satisfy the requirements of the client who has a specific brief. The product is constructed using locally sourced timber obtained from managed deciduous woodlands and hand built to an exacting standard in our workshops.

The majority of these trees are made in the following five basic styles, although other styles are available.

Standard

This is the familiar shape of most trees common to wood and parkland, the canopy had a width that equates to approximately 50% of the height of the tree, this affords a balanced appearance. We can supply bespoke standard trees up to 8 metres in height.

Columna

This is a tree built in columnar form which tapers gently from the top downwards. It is ideally suited for areas of restricted width or where an elegant column of foliage will enhance the ambience.

The Columna style is available in heights of up to 8 metres.

Mop Head

A popular choice, the mop head has a spherical canopy and has the ability display a variety of foliage to great advantage. Available in heights up to 4 metres.

Canopy

This tree is made with a greater expanse of unfoliated trunk, it is offered with differing widths of canopy and is available with a flat top, this feature allows the tree to be flush with the ceiling which makes it a favourite of the hospitality sector where it is used in restaurants and function rooms etc.

One Sided

Made in any of the above styles but modified to fit against a wall or other flat surfaces.

PREMIERE BESPOKE

Examples of outstanding craftsmanship in moulding techniques. The trees are manufactured using resin for the trunks and are expertly hand painted to replicate the real thing. The upper branches of the tree are natural timber, the result is a tree which is remarkably realistic and very strong due to the steel structure beneath the resin stem. It is also not as heavy as a product made exclusively from timber. The trees are supplied in a self assembly pack.

B O T A N I C A L L Y

correct

Brief: Create privacy in a quick and cost effective manner.

Solution: Black Bamboo Screening, UV New Buxus Hedge and UV Plastic Ivy.

FIRE SILX

FLAME RETARDANT FOLIAGE

Firesilx™ is an exclusive range of Inherently Fire Retardant products. These products have been tested by numerous fire departments worldwide and our own B.S. Certificates (BS 5852) are shown opposite.

With Firesilx™ foliage you get consistent cover even on PVC parts, this is because it is part of the manufacturing process.

The protection is not sprayed or dipped into fire retardant chemicals and as a result will not leave an oily film which attracts dust or washes off. There is also no re-proofing required.

With large scale commercial projects, it is factors like these that make all the difference, and give you peace of mind.

In this section you will find...

FICUS LIANA • JAPANESE MAPLE • CAPENSIA • DRACAENA
BAY LAUREL • LADY PALM • REOBELLINI PALM • KENTIA PALM

STANDARD FOLIAGE

Orange, Lemon, Lime and Peach

PROGRASS

ARTIFICIAL GRASS AND LAWNS

ProGrass is a new brand type of artificial grass. Available in four grades, each with its own special application, these hardwearing products, initially designed for sporting uses are increasingly being used in leisure areas, whether it be roof garden or a lawn. These are incredibly flexible products and very easy to use and install.

ProGrass is virtually maintenance free...

No watering, cutting or weeding. Like the real thing, leaves and debris will fall on the surface. These can be raked or blown off. Occasionally a refill of Silica sand may be re-applied. Pets and dog mess can be lifted and hosed clean. ProGrass has many applications: General Landscaping, Roadside verges, Pool surrounds, Rooftops and balconies, School playgrounds, Golf Courses, Rugby or Football pitches, Tennis courts, Residential and commercial lawns and more...

ProGrass Prime 11mm (GRS11)

Ideal for pathways, putting greens, play areas and general landscaping. Very hard wearing.

An infill of Silica Sand or Rubber granules is recommended.

ProGrass Prime 24mm (GRS24)

Fibrillated grass which is ideal for play areas and general landscaping. Fibres break down with wear and tear to give a very realistic look.

ProGrass Premier Lux 35mm (GRS35)

A luxury lawn with an infill already sewn in to look like root stock. Incredibly soft and lush and life-like in look and feel.

An infill of Silica Sand or Rubber granules is recommended.

ProGrass Premier 40mm (GRS40)

A bi-colour monofilament grass which requires a sand or rubber infill. Ideal as a lawn or sports surface, plus, ultra soft and lush.
